

Tone

Tone collection takes its name from the melody of the Mediterranean coast. The collection symbolizes the gentle lapping of the waves on the shore and the movement of the sea with the curves in its form. Its organic form reflects the elegance and originality of a seashell. Tone is not only inspired by nature but also takes an eco-friendly approach by using less energy and carbon emissions in its production. The collection has the feel of a ceramic workshop and is more durable than porcelain products, promising a visually and functionally satisfying experience, especially for boutique and fine dine restaurants.

Collection Features and Benefits

- Inspired by the elegance of seashells, Tone has a unique and elegant product design with its curved form.
- Tone, which stands out as a more durable and sustainable series thanks to its special vitrified product recipe and single firing technology, shows an environmentally friendly approach.
- This collection, which takes its amorphous form from handcraftsmanship, offers a satisfying quality for chefs and businesses with its superior durability.
- Winner of the world's most prestigious design awards, the Tone collection brings the magical, warm breezes of the Mediterranean to your presentations with its organic form and two different color options.
